Slay the calculus monster with this user-friendly guide *Calculus For Dummies, 2nd Edition* makes calculus manageable—even if you're one of the many students who sweat at the thought of it. By breaking down differentiation and integration into digestible concepts, this guide helps you build a stronger foundation with a solid understanding of the big ideas at work. This user-friendly math book leads you step-by-step through each concept, operation, and solution, explaining the "how" and "why" in plain English instead of math-speak. Through relevant instruction and practical examples, you'll soon learn that real-life calculus isn't nearly the monster it's made out to be. Calculus is a required course for many college majors, and for students without a strong math foundation, it can be a real barrier to graduation. Breaking that barrier down means recognizing calculus for what it is—simply a tool for studying the ways in which variables interact. It's the logical extension of the algebra, geometry, and trigonometry you've already taken, and *Calculus For Dummies, 2nd Edition* proves that if you can master those classes, you can tackle calculus and win. Includes foundations in algebra, trigonometry, and pre-calculus concepts Explores sequences, series, and graphing common functions Instructs you how to approximate area with integration Features things to remember, things to forget, and things you can't get away with Stop fearing calculus, and learn to embrace the challenge. With this comprehensive study guide, you'll gain the skills and confidence that make all the difference. *Calculus For Dummies, 2nd Edition* provides a roadmap for success, and the backup you need to get there. Become fluent in the universal language of beer *Beer For Dummies* is your companion as you explore the wide world of the third most-consumed beverage globally. Learn to recognize the characteristics of ales, lagers, and other beer styles. Perfect beer-and-food pairings. And embark on the ultimate beer tour, *Dummies-style!* Whether you're a beer novice or a brewery regular, there's always something new to learn. We'll help you pick the right beer for any occasion, understand why beers taste the way they do, and give you a handy reference to their strengths and ideal serving temperatures. This updated edition takes you a journey around the world of new beers—hazy-juicy in the U.S., Italian grape ale, Brazilian Catarina sour. You'll also get up to date on the latest beer review apps and how the internet is shaping and reshaping beerdom. Cheers! Make an informed choice when selecting a beer and pairing with food Learn the fascinating process of brewing the different types of beer Discover world beer culture and new beer innovations Heighten your enjoyment of the subtleties of craft beer This book is an excellent resource for aiding your understanding, purchasing, drinking, and enjoyment of beer. Learn to speak German? Easy. *German All-in-One For Dummies* conveniently combines titles from the German *Dummies* library into one handy guide that covers all of the bases of the German language. For those looking to master fluency in this popular language, this book and CD combo are an efficient and logical choice. *German All-in-One For Dummies* brings together content from *German For Dummies, 2nd Edition*, *German For Dummies Audio Set*, *German Phrases For Dummies*, *Intermediate German For Dummies*, and *German Essentials For Dummies*. Plus, it includes a new CD that allows for even more opportunities to practice speaking the language, as well as additional content on grammar and usage to empower you to use and speak German like a native. Offers instruction and practice exercises for both speaking and writing German Helps you prepare to demonstrate proficiency in conversational German If you want to improve your German, whether it's for work, travel, or enjoyment, *German All-in-One For Dummies* has you covered. A user-friendly guide to coping with the daily issues of Parkinson's If you or someone you love has been diagnosed with Parkinson's Disease you're probably wrestling with fear, despair, and countless questions about the future. It's brighter than you think. In *Parkinson's Disease for Dummies*, you'll discover how to keep a positive attitude and lead an active, productive life as this user-friendly, guide pilots you through the important steps toward taking charge of your condition. It helps you: Make sure you have an accurate diagnosis Assemble and work with your health care team Inform others about your condition Choose the most effective medications Establish a diet and exercise regimen Consider surgical options, alternative therapies, and clinical trials Maintain healthy personal and professional relationships Adjust your routine as your PD progresses This one-stop resource provides proven coping skills, first-hand advice, and practical tools, such as worksheets to assess care options, questions to ask doctors, and current listings of care providers. A diagnosis of Parkinson's disease is a life-altering event. There is no one way to deal with it. Everyone has a unique set of circumstances, and every patient experiences Parkinson's differently. That's why one book on PD can never be all things to all people. Whether you are living with the disease or are a caregiver or friend to someone who is, you will come to rely on a wide variety of high-quality books, manuals, Web sites, resources and tools. You may be surprised by the voracity of your appetite for newer, better, and just plain more information about PD. And since Parkinson's is-for now, at least-a disease that stays with you for life, your information needs may evolve and change over time. This book represents something incredibly important: a place to start. We commend its emphasis on tenets that we at The Michael J. Fox Foundation strive to incorporate into our work: an action orientation, a problem-solving mentality, and the distillation of a great deal of complicated information into clear, logical next steps. Most importantly, the Foundation shares with the authors of this book a commitment to keep patients front and center in every decision

we make. As the largest funder of Parkinson's research outside the federal government, we actively partner with scientists to innovate new funding mechanisms that can maximize the quality, quantity and pace of PD research. With a comprehensive view of the field and proactive management of the grants in our portfolio, we are ideally positioned to bridge the gap between basic research and the clinic. For years scientists have asserted that with sufficient research funding, a cure for Parkinson's is within reach. We are working urgently to prove them right. ---Debi Brooks, President and CEO, The Michael J. Fox Foundation for Parkinson's Research

The ultimate guide to the world of cryptocurrencies! While the cryptocurrency market is known for its volatility—and this volatility is often linked to the ever-changing regulatory environment of the industry—the entire cryptocurrency market is expected to reach a total value of \$1 trillion this year. If you want to get in on the action, this book shows you how. *Cryptocurrency Investing For Dummies* offers trusted guidance on how to make money trading and investing in the top 200 digital currencies, no matter what the market sentiment. You'll find out how to navigate the new digital finance landscape and choose the right cryptocurrency for different situations with the help of real-world examples that show you how to maximize your cryptocurrency wallet. Understand how the cryptocurrency market works Find best practices for choosing the right cryptocurrency Explore new financial opportunities Choose the right platforms to make the best investments This book explores the hot topics and market moving events affecting cryptocurrency prices and shows you how to develop the smartest investment strategies based on your unique risk tolerance. The easy way to successfully run a profitable restaurant Millions of Americans dream of owning and running their own restaurant because they want to be their own boss, because their cooking always draws raves, or just because they love food. *Running a Restaurant For Dummies* covers every aspect of getting started for aspiring restaurateurs. From setting up a business plan and finding financing, to designing a menu and dining room, you'll find all the advice you need to start and run a successful restaurant. Even if you don't know anything about cooking or running a business, you might still have a great idea for a restaurant and this handy guide will show you how to make your dream a reality. If you already own a restaurant, but want to see it get more successful, *Running a Restaurant For Dummies* offers unbeatable tips and advice for bringing in hungry customers. From start to finish, you'll learn everything you need to know to succeed. New information on designing, re-designing, and equipping a restaurant with all the essentials from the back of the house to the front of the house Determining whether to rent or buy restaurant property Updated information on setting up a bar and managing the wine list Profitable pointers on improving the bottom line The latest and greatest marketing and publicity options in a social-media world Managing and retaining key staff New and updated information on menu creation and the implementation of Federal labeling (when applicable), as well as infusing local, healthy, alternative cuisine to menu planning *Running a Restaurant For Dummies* gives you the scoop on the latest trends that chefs and restaurant operators can implement in their new or existing restaurants. P.S. If you think this book seems familiar, you're probably right. The *Dummies* team updated the cover and design to give the book a fresh feel, but the content is the same as the previous release of *Running a Restaurant For Dummies* (9781118027929). The book you see here shouldn't be considered a new or updated product. But if you're in the mood to learn something new, check out some of our other books. We're always writing about new topics! Having a baby is an incredible experience, and the ultimate responsibility! Parenting is a job that you start with no training at all ? and friends and family always seem to be the first to tell you how best to bring up your children. But there's no sure-fire formula for raising kids. Maybe that's because every child, like every parent, is an individual, and no two parent-child relationships are ever the same. So, you can give up any notions of being a perfect parent. But, you can learn to keep the big mistakes to a minimum and make the parenting experience easier and more rewarding for your children and yourself. Which is where this book comes in. Covering information for newborns to pre-teens, *Parenting For Dummies* gives you the essentials of parenting basics. From dealing with a crying baby and potty training, to building self-esteem and dealing with sibling rivalry, it offers a gold mine of up-to-date advice. Your comprehensive, practical guide to dadhood Your new baby is nothing short of a miracle—and it's no wonder you want to keep your bundle of joy safe and sound through every stage of their first year. *Dad's Guide to Baby's First Year For Dummies* takes the guesswork out of being your baby's primary caregiver, giving you sound instruction and helpful advice on looking after your baby, the essential gear you'll need to baby-proof your home, practical solutions to common parenting challenges, and so much more. Whether it's due to a fledgling economy or a simple sign of modern times, more and more men are staying at home with the kids while their breadwinning wives or partners deal with rush hour traffic. Whatever the reason you've decided to take on the role of Mr. Mom, *Dad's Guide to Baby's First Year For Dummies* offers all the friendly guidance and trusted tips you need to be a fantastic full-time parent. Look after your baby and teach children great skills Help your partner through pregnancy, birth, and beyond Follow the habits of highly successful dads Be a hands-on, stay-at-home dad If you're a proud papa-to-be, *Dad's Guide to Baby's First Year For Dummies* ensures all your bases are covered, so you can spend less time fretting about fatherhood and more time cherishing your wee one. The bestselling 'bible' of project management In today's time-crunched, cost-conscious global business environment, tight project deadlines and stringent expectations are the norm. So how can you juggle all the skills and responsibilities it takes to shine as a project management maven? Updated in a brand-new edition, *Project Management For Dummies* offers everything you need to successfully manage projects from start to finish—without ever dropping the ball. Whether it's managing distressed projects, embracing the use of social media to drive efficiency and improve socialization, or resolving conflicts that occur during a project, the soup-to-nuts guidance inside will help you wear your project management hat more prominently—and proudly. Get the latest in industry best practices reflecting PMBOK 6 Motivate any team to gain maximum productivity Execute projects on time and with maximum efficiency Prepare for the Project Management Professional (PMP) certification exam It's never been easier to execute projects on time, on budget, and with maximum efficiency. Discover how easy and fun baking can be! Ever walk past a bakery window and marvel at the assortment of cookies, tarts, pies, and cakes and wonder how they did it? Wonder no more. The secrets to creating them can now be yours. With *Baking For Dummies*, You'll discover how simple (and fun!) whipping up any sort of baked good from a chocolate layer cake, a classic apple pie to a plateful of scrumptious chocolate chip cookies or black-and-white brownies actually is. The magic is in the doing and baking expert Emily Nolan shows you how. In almost no time, you'll get down to basics with easy-to-follow tips on: Outfitting your kitchen with a baker's essentials including baking pans (loaf pans, springform pans, glass vs. aluminum pie plates), food processors and blenders, bowls, measuring cups, graters, and sifters Measuring ingredients, preparing pans, working with eggs, zesting fruit, and melting chocolate Getting ready to bake, preparing your kitchen, working with recipes, and using the right equipment And once you're all set, you'll marvel at how simple creating the

smallest baking masterpiece really is: From chocolate cupcakes topped with mocha frosting to a lemon-curd cheesecake, to fluffy blueberry muffins and buttermilk biscuits From scrumptious pumpkin and chocolate cream pies and a classic cheesecake to outrageously delicious chocolate chip and oatmeal raisin cookies From a heart-warming chicken potpie to a yummy cheese soufflé With over 100 recipes to choose from (including ones for soft pretzels and pizza!), eight pages of color photos, a summary cheat sheet of baking essentials, black-and-white how-to illustrations, and humorous cartoons along the way, the book will reward, even a baking novice, with delicious results and allow you to enjoy the unending magic of baking from scratch. Dit boek behandelt de planmatige aanpak van marketing van producten en diensten via het internet. Het boek heeft tot doel marketingtechnieken te vertalen naar de wereld van het internet. The easy way to get 'in' with influencer marketing Are you a marketing guru looking to stay at the top of your game? Then you need to be in the know on influencer marketing. A hybrid of content marketing and native advertising, influencer marketing is an established trend in marketing that identifies and targets individuals with influence over potential buyers. Although this has usually meant focusing on popular celebrities and Internet personalities, there is a new wave of 'everyday consumers' that can have a large impact. In *Influencer Marketing For Dummies*, you'll find out how to market to those who rock social media—and, subsequently, grow your brand. Influencer marketing relies on building strong relationships with customers. With the help of this hands-on, friendly guide, you'll discover how to build superior customer service and experience, make strong interactions with customers, and encourage organic and authentic sharing about your brand. Measure the most impact that content has on your overall marketing strategy Find influencers: it's not just a numbers game or a 'who's who' of social media Engage with influencers once you've found them Recognize the best practices of influencer marketing and outreach If you're a marketer, media agency professional, business owner, or anyone else who works hard to bring brands, products, and services to the largest audience possible, *Influencer Marketing For Dummies* is the go-to guide you don't want to be without. Fun in Las Vegas is a sure bet! Get set for a winning vacation in Vegas. Stroll by the Eiffel Tower, meander down the canals of Venice, gaze at an Egyptian pyramid, or cross the Brooklyn Bridge. Take in a show, experience the Strip, hit the casinos, enjoy fine cuisine, power shop, or even explore nearby natural wonders. Whether you want exciting action or relaxing luxury, with this friendly guide you've hit the jackpot. Open the book and find: Down-to-earth trip-planning advice What you shouldn't miss—and what you can skip The best hotels and restaurants for every budget Lots of detailed maps One of Mark Cuban's top reads for better understanding A.I. (inc.com, 2021) Your comprehensive entry-level guide to machine learning While machine learning expertise doesn't quite mean you can create your own Turing Test-proof android—as in the movie *Ex Machina*—it is a form of artificial intelligence and one of the most exciting technological means of identifying opportunities and solving problems fast and on a large scale. Anyone who masters the principles of machine learning is mastering a big part of our tech future and opening up incredible new directions in careers that include fraud detection, optimizing search results, serving real-time ads, credit-scoring, building accurate and sophisticated pricing models—and way, way more. Unlike most machine learning books, the fully updated 2nd Edition of *Machine Learning For Dummies* doesn't assume you have years of experience using programming languages such as Python (R source is also included in a downloadable form with comments and explanations), but lets you in on the ground floor, covering the entry-level materials that will get you up and running building models you need to perform practical tasks. It takes a look at the underlying—and fascinating—math principles that power machine learning but also shows that you don't need to be a math whiz to build fun new tools and apply them to your work and study. Understand the history of AI and machine learning Work with Python 3.8 and TensorFlow 2.x (and R as a download) Build and test your own models Use the latest datasets, rather than the worn out data found in other books Apply machine learning to real problems Whether you want to learn for college or to enhance your business or career performance, this friendly beginner's guide is your best introduction to machine learning, allowing you to become quickly confident using this amazing and fast-developing technology that's impacting lives for the better all over the world. The bestselling guide to building a knockout Web site, newly updated An effective Web site is the key to success for every venture from class reunions to major corporations. And since Web technology changes rapidly, *Building a Web Site For Dummies*, 4th Edition is fully updated for the cutting-edge tools and trends. If you need to build and maintain a Web site, even if your experience is severely limited, this book makes it easy and fun. You'll learn to plan, design, create, launch, and maintain your site using the most up-to-date tools. A quality Web presence is essential in today's marketplace, and many individuals charged with creating one are unaware of the challenges This guide gives novice Web designers the tools and know-how to plan, design, and build effective Web sites Provides a nuts-and-bolts guide to site-building, including coverage of HTML, WYSIWYG construction software, CSS, and navigation plans Shows how to spruce up your site with topnotch graphics, video, and great content Guides you through getting your site online, promoting it, and even making money from it *Building a Web Site For Dummies*, 4th Edition is the tool every first-time Web designer needs to build a professional-looking site. Get the most out of your laptop or tablet PC *Laptops For Seniors For Dummies* makes it easier than ever for the 50+ set to enjoy a laptop or tablet PC by taking the intimidation out of working with a new device. Featuring larger text and images, this bestseller empowers you to keep up with your kids or grandkids with all the latest and greatest that technology has to offer. Assuming no prior knowledge, this accessible guide starts from the beginning by helping you select the right laptop or tablet for your needs, shows how the various parts connect together, and illustrates how to use the keyboard and mouse. Once you've chosen your device and mastered the basics, this book will help you navigate your way around the Windows 10 operating system, show you how to use the touchscreen capabilities, and so much more. In no time at all, you'll wonder why you hadn't bought a laptop sooner! Keep in touch with family and friends through email and social networking sites Get on the internet to shop and browse your favorite sites Ensure your information is safe online Use the latest applications for work and play Everything you love about your desktop computer can be conveniently taken on the go with a laptop. *Laptops For Seniors For Dummies* will help you have fun and feel successful with your new device. Discover how the modern world came to be with this easy-to-follow and up-to-date history companion Want to get a taste of the entirety of human history in a single book? With *World History For Dummies*, you'll get an overview of the history of, well, everything, from the Neanderthal experience to the latest historical developments of the 21st century. Re-live history from your armchair as you ride into battle alongside Roman generals, prepare Egyptian pharaohs for the afterlife, and learn from the great Greek poets and philosophers. Written in the easy-to-digest style the *For Dummies* series is famous for, you'll discover: How religion, philosophy, and science shaped, and were shaped by, the great figures of history The human consequences of warfare, from historical battles to more modern conflicts from the 20th century What's influencing events in the 21st century, from climate change to new regimes and economies *World History For Dummies* is the perfect gift for the lifelong learner who wants to

brush up on their world history knowledge. It's also an indispensable resource for AP World History students looking for a supplemental reference to help them with their studies. Start shuffling! A value-packed guide to speaking, reading, and writing in Spanish Spanish All-in-One For Dummies is the first Dummies All-in-One title in the foreign language category—nearly 800 pages of expert instruction to help people master Spanish basics and beyond. This comprehensive volume features content from all For Dummies Spanish language instruction titles, including Spanish For Dummies, Intermediate Spanish For Dummies, Spanish Verbs For Dummies, and Spanish For Dummies Audio Set. The book's audio CD provides readers with an effective tool to help them start speaking Spanish from day one. Plus, the practical exercises give readers greater confidence in communicating in Spanish, whether traveling or in business. Become a Java wizard with this popular programming guide Consider Beginning Programming with Java For Dummies your indispensable guide to learning how to program in one of the most popular programming languages—Java! Java is an invaluable language to master, as it's widely used for application development, including Android, desktop, and server-side applications. Beginning Programming with Java For Dummies is written specifically for newbies to programming. The book starts with an overview of computer programming and builds from there; it explains the software you need, walks you through writing your own programs, and introduces you to a few of the more-complex aspects of programming in Java. It also includes step-by-step examples you can try on your own (and email the author if you need help). As you work through the book, you'll get smart about these Java features: Object-oriented programming (OOP), a Java mainstay IntelliJ IDEA, an integrated development environment (IDE), that gives you one place to do all your programming, including debugging code Loops, branches, and collections Variables and operators Expressions, statements, and blocks Beginning Programming with Java For Dummies translates all this foreign programming and computer syntax into plain English, along with plenty of helpful examples and tips. Learning a new language—and coding is definitely its own language—should be a fun endeavor. With this book as your handy interpreter, you'll be on your way to fluency, speaking the language of coders everywhere! Written by a team of business and finance experts, Starting & Running a Business All-In-One For Dummies is a complete guide to every aspect of setting up and growing a successful business. "A must for anyone interested in the Roman Empire and its impact on world history." —Tony Robinson, star of Blackadder and Time Team. This entertaining and informative guide is the perfect introduction to the amazing world of ancient Rome and its emperors, epic wars, awesome architecture, heroes, and villains. With a complete rundown of Roman history alongside fascinating insights into the lives of everyday Romans, you'll discover the amazing people and events involved in the rise and fall of one of the greatest of all ancient civilizations and how its influence is felt around the world today. If you've tuned into any of several TV shows focused on Rome and want to learn more about this fascinating part of history, The Romans For Dummies is the book for you. Schoolteachers and lecturers looking for light-hearted inspiration for lessons will also benefit from this riotous Roman adventure chronicling the rise and fall of the Empire. The Romans For Dummies is an accessible guide written in plain English giving you the fascinating facts of this ancient civilization. You'll learn about the following (and more): How Roman society was divided into classes The assemblies that ruled Rome Why villas were important to the Romans Details about the Roman army, including a Roman soldier's equipment The wonder of Roman architecture, cities, roads, aqueducts, and sewers Everything you ever wanted to know about gladiators and then some The importance of Roman temples, shrines, and the gods How Rome became a republic, an empire, and then collapsed Additionally, you'll learn about turning points in Roman history, (mostly) good and (some) bad Romans, Rome's greatest enemies, and great places to visit you won't want to miss on your next Roman holiday. Grab a copy of The Romans For Dummies to discover this and so much more. Guy de la Bédoyère is a historian, archaeologist, and Roman expert, he is well known for his numerous books and appearances on TV, especially Channel 4's Time Team. Students need to learn to manage their time, organise their studies, understand, learn, and convey a lot of information ? and they need to learn to do it quickly.
