The War for Syria May 05 2020 Examining the international dimensions of the Syrian conflict, this book studies external factors relating to the Uprising. It explores the involvement of outside powers and the events' impact both on regional and international level. Syria was widely perceived to be essential to the regional power balance, hence it was a valued prize to be fought over. The book examines the impact of global and regional powers in propelling the conflict in Syria; looks at the motives and strategies of the key regional and international actors (Hizbollah, Palestinians, Iran, Qatar, Saudi Arabia, US, Russia, EU); and analyses the impact of the Syrian conflict on key relations between regional states (Turkey-Syria, Turkey-Iran, Iraq-

Syria). Finally, several chapters treat the impact on Syria of international sanctions and the "Responsibility to Protect" doctrine. This book follows on to *The Syrian Uprising: Domestic Origins and Early Trajectory*, edited by Raymond Hinnebusch and Omar Imady (2018). Subsequent volumes will examine the later evolution of the conflict. Taking an innovative and interdisciplinary approach that seeks to capture the full complexity of the phenomenon, this book contributes significantly to our understanding of the Syrian conflict and will therefore be a valuable resource for anyone studying Middle Eastern Politics.

Contemporary Conflicts in Southeast Asia Sep 08 2020 This book looks at major contemporary conflicts—intra and interstate—in Southeast Asia from a conflict management perspective. Starting with the view that the conventional ASEAN conflict-management methods have ceased to be effective, it looks for new conflict-management patterns and trends by investigating seven contemporary cases of conflict in the region. Focusing on the incompatibilities involved in each case and examining how they have been managed—whether by integration, co-existence, elimination or maneuvering around the conflict—the book sheds new light on the significance of managing conflict in achieving and maintaining the stability of the Southeast Asian region. It makes a significant theoretical contribution to the field of peace and conflict studies by proposing the concept of “mediation regime” as the key to understanding current conflict management within ASEAN.

This book presents the first comprehensive overview of conflict and peace across the continent. Bringing together a range of leading academics from Africa and beyond, *Peace and Conflict in Africa* is an ideal introduction to key themes of conflict resolution, peacebuilding, security and development. The book's stress on the importance of indigenous Africa approaches to creating peace makes it an innovative and exciting intervention in the field.

Warrant for Genocide Jan 31 2020 The Spirit of the Common Law is one of Roscoe Pound's most notable works. It contains the brilliant lectures he delivered at Dartmouth College in the summer of 1921. It is a seminal book embodying the spiritual essence of sociological jurisprudence by its leading prophet. This work is both a celebration of the common law and a warning for common law judges and lawyers to return to and embrace the pragmatism and judicial empiricism that define and energize the common law. The two fundamental doctrines of the common law, Pound writes, are the doctrine of precedents and the doctrine of supremacy of law. In an earlier preface, Justice Arthur J. Goldberg writes that The Spirit of the Common Law will always be treasured by judges and lawyers for its philosophy and history, but more importantly for Roscoe Pound's optimism and faith in the capacity of law to keep up with the times without sacrificing fundamental values. It is a faith built upon the conviction that the present is not to be divorced from the past, but rather that the past and the present are to be built upon to make a better future. Neil Hamilton and Mathias Alfred Jaren provide a biographical introduction to the book. They discuss the various influences upon Pound's scholarly pursuits and they analyze many of his writings that led up to The Spirit of the Common Law. This volume is a necessary addition to the libraries of legal scholars and professionals, sociologists, and philosophers.

Heer van de vliegen Jun 29 2022 Nog altijd even opwindend en tot nadenken stemmend als toen het in 1954 verscheen, schept 'Heer van de vliegen' een gewelddadig, treffend beeld van de menselijke natuur, en wat er met deze gebeurt als de beschaving ten onder gaat. Een groep schooljongens stort neer op een onbewoond eiland. Zonder ouders of ander volwassen toezicht moeten ze met elkaar samenwerken om te overleven, waar ze jammerlijk in falen. Hun strijd om het bestaan krijgt geleidelijk steeds meer barbaarse trekken. Heer van de vliegen werd bij verschijning met lof overladen, maar commercieel succes bleef in eerste instantie uit. Geleidelijk aan werd het echter een cult-favoriet onder studenten en critici, en werd het vaak vergeleken met Salingers De vanger in het graan wat betreft invloed op de moderne literatuur.

Ethnic Conflict in the Post-Soviet World Jul 31 2022 A collection of essays on ethnic conflict in the region, most of which do not support the notion that conflicts in Central Europe and the NIS are ethnically based or that ethnicity provides the key to their outbreak or resolution, but rather social, political, and economic conflicts are spawned by imperial collapse and far-reaching socioeconomic crises. Underlying themes include the motivating power of claims to equality and human dignity, and the struggle for control over political and economic resources. Colombia and the European Union as key partners for peace Nov 03 2022 Bachelor Thesis from the year 2021 in the subject Politics - International Politics - Topic: Peace and Conflict Studies, Security, grade: 1,0, University of Regensburg (Professur für Vergleichende Politikwissenschaft (Schwerpunkt Westeuropa)), language: English, abstract: Colombia's long path towards peace was heavily marked by the signing of a peace agreement in 2016 that was supposed to officially put an end to the longest-running conflict in modern Latin America. Nevertheless, even after more than four years since that historic milestone, violence continues to plague the country, endangering the transition towards a real transformation. Although the conflict's origin is complex and multicausal, some of its root causes, such as socioeconomic inequality, limited political participation and the State's absence in several regions, remain unsettled. This internal conflict does not stop at the Colombian border and rather places itself within an international context, bringing

several actors of the international community together. Specifically, the European Union (EU) appears as one additional player that seeks to support the building of sustainable peace in the country by helping to tackle some of the structural causes of the conflict. In parallel, it should contribute to the implementation of the peace accords - which independently from its actual fulfillment - rely on a broad reconciliation and consensus-seeking process of major symbolism. The European Trust Fund for Colombia (EUTF for Colombia) - established in December 2016 - embodies the EU's aim to contribute to sustainable development in the long run. This premise builds the essence of the EU Development Policy. The following thesis attempts to examine the EU peacebuilding strategy in Colombia in the aftermath of the conflict. The main question guiding the research is: To what extent has the EUTF for Colombia contributed to the building of a just and sustainable peace in the country during the post-conflict era?

War in 140 Characters Dec 24 2021 A leading foreign correspondent looks at how social media has transformed the modern battlefield, and how wars are fought Modern warfare is a war of narratives, where bullets are fired both physically and virtually. Whether you are a president or a terrorist, if you don't understand how to deploy the power of social media effectively you may win the odd battle but you will lose a twenty-first century war. Here, journalist David Patrikarakos draws on unprecedented access to key players to provide a new narrative for modern warfare. He travels thousands of miles across continents to meet a de-radicalized female member of ISIS recruited via Skype, a liberal Russian in Siberia who takes a job manufacturing "Ukrainian" news, and many others to explore the way social media has transformed the way we fight, win, and consume wars-and what this means for the world going forward.

Just Peace After Conflict Apr 15 2021 The interplay between peace and justice plays an important role in any contemporary conflict. Peace can be described in a variety ways, as being 'negative' or 'positive', 'liberal' or 'democratic'. But what is it that makes a peace

just? This book draws together leading scholars to study this concept of a 'just peace', analysing different elements of the transition from conflict to peace. The volume covers six core themes: conceptual approaches towards just peace, macro-principles, the nexus to security and stability, protection of persons and public goods, rule of law, and economic reform and accountability. Contributions engage with understudied issues, such as the pros and cons of robust UN mandates, the link between environmental protection and indigenous peoples, the treatment of illegal settlements, the feasibility of vetting practices, and the protection of labour rights in post-conflict economies. Overall, the book puts forward a case that just peace requires not only negotiation, agreement, and compromise, but contextual understandings of law, multiple dimensions of justice, and strategies of prevention. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is offered as a free PDF download from OUP and selected open access locations.

„Their Eyes Were Watching God“ - Analysis of the main conflicts and some metaphorical images of the novel Jan 01 2020 Studienarbeit aus dem Jahr 2005 im Fachbereich Amerikanistik - Literatur, Freie Universität Berlin, Sprache: Deutsch, Abstract: Their Eyes Were Watching God is the story of a woman's life. Protagonist Janie recapitulates her way from youth to her forties and shows the growing-up of a woman in the search for love. On the sideways Zora Neale Hurston points out the life of African-American people and their problems on the turn of the twentieth century until the 1930s. The objective of this paper is to point out the main conflicts and metaphorical images used in the book. As the novel is to some extent a biography of a woman's way to love the first to mention is the eternal conflict between men and women. Like a painter Hurston draws the traditional roles of the sexes and the contradictions of her time - a time of feminine emancipation in all aspects. Emancipation also plays a role in the obvious generation conflict personated in Nanny, Janie's grandmother. Somehow incidental, but flashing now and then, and sharp in her observations Hurston works up the racial issue of black and white living together in the American society around 60 years after slavery has officially ended. These are the more general conflicts of the book, while within the story opens the conflict within the black community. A subtle comparison of the life in Eatonville and the Everglades - inseparable of course from the totally differing feelings of Janie in both places. In the course of the novel Hurston uses strong, picturesque metaphorical language to describe the inner world of Janie's thoughts and feelings. This paper can only give a few examples for these images. The tree image stands for her love life and sexuality - first in bloom when she becomes a woman. The mule stands as a symbol for the submission of women through men.

8 Keys to End Emotional Eating (8 Keys to Mental Health) May 17 2021 Bring an end to emotional eating by getting to the root of the problem. Most books about emotional eating tend to focus on how to strengthen self-restraint or how to identify what triggers it. The former can make the problem worse, while the latter may be different each time it occurs. Both approaches fail to help emotional eaters understand why they feel compelled to do something that they don't want to do in the first place. This understanding is the key to changing this behavior. Howard Farkas, who has more than two decades of professional and teaching experience as a clinical psychologist specializing in emotional eating, explains the underlying motive that drives the behavior: emotional eating is not a passive failure of self-

control, but an active impulse to reject the control of dieting. This defiant need "to be bad" usually leaves the person feeling guilty and anxious about their eating, and recommitting to their diet until the cycle repeats, and the compulsive eating recurs. *8 Keys to End Emotional Eating* provides a detailed plan for breaking this pattern. By explaining the root cause that drives the desire to binge, Farkas offers practical skills to help you learn to change your mindset about dieting and end the impulse to binge. His road map for the future will help readers maintain healthy eating habits for years to come.

The Crypto Controversy: A Key Conflict in the Information Society Jan 05 2023 Cryptography is essential for information security and electronic commerce, yet it can also be abused by criminals to thwart police wiretaps and computer searches. How should governments address this conflict of interests? Will they require people to deposit crypto keys with a 'trusted' agent? Will governments outlaw cryptography that does not provide for law-enforcement access? This is not yet another study of the crypto controversy to conclude that this or that interest is paramount. This is not a study commissioned by a government, nor is it a report that campaigns on the electronic frontier. The Crypto Controversy is neither a cryptography handbook nor a book drenched in legal jargon. The Crypto Controversy pays attention to the reasoning of both privacy activists and law-enforcement agencies, to the particulars of technology as well as of law, to 'solutions' offered both by cryptographers and by governments. Koops proposes a method to balance the conflicting interests and applies this to the Dutch situation, explaining both technical and legal issues for anyone interested in the subject.

CONFLICT MANAGEMENT Feb 23 2022

Managing Interpersonal Conflict Oct 29 2019 This book explores the process of interpersonal conflict - from the initial decision as to whether or not to confront differences through to how to plan the actual confrontation. It deals extensively with negotiation and, where negotiation proves unsuccessful, with third-party dispute resolution. To avoid destructive or violent behaviour, Donohue emphasizes the importance of keeping conflicts under control and of focusing on the pertinent issues. He argues that the key to managing conflict is to address differences collaboratively so that the parties can create better solutions and, ultimately, strengthen their relationships.

Resolving Conflict May 29 2022 Conflict is inevitable, in everyday life and—especially in today's increasingly non-hierarchical organizations—in the workplace. So what has always been a key leadership skill—conflict resolution—has become even more critical. But too often, leaders receive little formal training in conflict resolution, and they struggle just to manage the simplest interpersonal

conflicts. By using the lessons of this book, readers will be able to apply a thorough, proven method—summarized in ten steps—for resolving conflicts. Following these steps, leaders can analyze a conflict and move toward its resolution with more assurance of a positive outcome for everyone involved.

UNESCO, Cultural Heritage and Conflict in Yemen, Syria and Iraq Oct 10 2020 This book aims to determine UNESCO's capability to facilitate heritage protection measures pre-conflict, emergency response measures during conflict and reconstruction efforts post-conflict. The book employs document analysis to ascertain UNESCO's legal obligations when it comes to facilitating cultural heritage protection in its Member States' territories in the condition of armed conflict, while drawing comparisons with the reality of the organisation's presence and involvement in Yemen, Syria and Iraq. This study maps shifts in UNESCO's level of communication with each country's respective government and civil authorities; allocation of financial, human and material resources; and implementation of heritage safeguarding and reconstruction initiatives. Both quantitative and qualitative data shows UNESCO to exhibit great inequity in engagement, at times, closing communications entirely with Syria, due to the political standpoints of other UNESCO Member States. This political gridlock is often shown to result in the organisation overstating its ability to safeguard or restore heritage, with promises not being followed up with action. Since 2015, UNESCO has expressed a stronger intent to be a key player in heritage protection during armed conflict, however as long as cultural heritage protection is not considered a humanitarian concern, UNESCO will not be able to circumvent much of the political and bureaucratic barriers facing intergovernmental organisations during conflict, which prevent emergency action from being implemented. In order to ensure heritage safeguarding is permitted during periods of significant unrest, regardless of political discord, it is crucial that UNESCO promote a people-centred approach to its cultural heritage protection initiatives. This book evidences that focusing on livelihoods and meaningful and practical connections between populations and their local heritage to be UNESCO's optimal methodological approach for justifying cultural heritage protection as a humanitarian necessity. The book's readership includes academics, researchers, and practitioners in the fields of political science, law and heritage studies.
